SUBJECT INDEX TO VOLUME 16

Adolescent health, among African Americans (editorial), (4):iii–iv
Adolescent health, among African Americans, and application of the stress-coping framework, 193
Adolescent health, state of the art in research and theory, 1
Adolescents, and alcohol abuse, anticipatory guidance, 207
Adolescents, causes of death (editorial), (4):iii–iv
Adolescents, resilience (editorial), (4):iii–iv
Adolescents with cancer, health behaviors, 219
Adolescents with cancer, and use of photography to explore meaning of health, 155
African American adolescent health, and application of the stress-coping framework, 193
Alcohol abuse, anticipatory guidance for adolescents, 207
Anticipatory guidance for adolescents, and alcohol abuse, 207
Attention deficit disorder, and correlates of family functioning, 175

Black adolescent health, and application of the stress-coping framework, 193
Book reviews, 61, 261
Breast feeding (editorial), (3):iii–vi
Bruner's theory of instruction, and preprocedural anxiety, 147

Cancer, in adolescents, and health behaviors, 219
Cancer, in adolescents, and use of photography to explore meaning of health, 155
Child abuse, reasons for prevention (editorial), (1):iii–vii
Chronic illness, comparison of dependent care for well siblings of cystic fibrosis patients and families without chronic illness, 91
Chronic illness, parental perceptions and support strategies for parents, 109
Chronically ill children, mothers' perceptions of environmental variables, 63
Clinical issues, about homeless children and families, 99
Cystic fibrosis, comparison of dependent care for well siblings with care for well siblings in families without chronic illness, 91

Day care for ill children, 77
Dependent care, comparison of well siblings in families with cystic fibrosis patients and without chronic illness, 91
Developmental disabilities, and graduate nursing education, 239
Diagnostic closure, and spread of uncertainty, 135
Disabilities, children with, and play therapy, 165
Discharge, multidisciplinary, coordinating for technology-dependent children, 229
Divorce, effects on grandparent-grandchild relationship, 125

Education, graduate, and developmental disabilities and special care needs, 239
Environment, maternal perceptions of, and chronically ill children, 63

Families, effects of divorce on grandparent-grandchild relationship, 125
Families, homeless, clinical and research issues, 99
Families, and uncertainty following children's diagnosis, 135
Family functioning, when a child has attention deficit disorder, 175

Graduate nursing education, and developmental disabilities and special care needs, 239
Grandparent-grandchild relationship, and divorce, 125

Health needs, of school-aged children in Midwest, 51
Health promotion, "billboards in space" (editorial), (2):v–vii

Health status of black adolescents, an application of the stress-coping framework, 193
Home care, for medically fragile children, urban versus rural, 13
Homeless children and families, clinical and research issues, 99

Illness in children, and day care, 77
Immunization compliance, and maternal characteristics and vulnerability beliefs, 41

Maternal characteristics, maternal vulnerability beliefs, and immunization compliance, 41
Maternal perceptions of environmental variables, and chronically ill children, 63
Maternal vulnerability beliefs, maternal characteristics, and immunization compliance, 41
Medically fragile children, urban versus rural home care, 13
Midwest, health needs of school-aged children in two counties, 51
Multidisciplinary discharge, coordinating for technology-dependent children, 229

Nursing research, in adolescent health, 1

Parental needs, and coordinating a multidisciplinary discharge for technology-dependent children, 229
Parental perceptions, and support strategies in caring for chronically ill children, 109
Parents, and uncertainty following children's diagnosis, 135
Photography, use among adolescents with cancer, 155
Play therapy, and children with disabilities, 165
Preprocedural anxiety, and Bruner's theory of instruction, 147
Public service announcements, "billboards in space" (editorial), (2):v–vii

Research issues, about homeless children and families, 99

Sexual abuse, crucial issues in treatment (case study), 31
Siblings, comparison of dependent care for well siblings of cystic fibrosis patients with care for well siblings in families without chronic illness, 91
Special care needs, and graduate nursing education, 239
Stress-coping framework, and adolescent health, 193
Support strategies, for parents of chronically ill children, and parental perceptions, 109

Technology-dependent children, coordinating a multidisciplinary discharge, 229
Theory development, in adolescent health, 1

Uncertainty, spread of, and diagnostic closure, 135
Urban versus rural home care for medically fragile children, 13

Video review, 191
